THE SUDS

Welcome to "The Suds", where you'll find a rich lather of important updates, upcoming events, cleaning tips and some good, clean fun.

ONWARD & UPWARD

Who would have thought the world would be such a completely different place in our one month hiatus from our newsletter. Life has changed as we know it. We have been thrust into an era of creativity; to push ourselves to think outside the box and find new ways to show people we care. It may mean simplifying our lives, more active listening to others and a lot more patience, but maybe that's not such a bad thing.

To our clients: thank you for your continued trust and commitment to safety during the Covid-19 crisis. We are thankful to be back in your homes and offices.

SUMMER IS HERE

Summer is upon us, which means school's out (congrats to all our grads, btw!) and many grassy, muddy, sandy and watery activities are in our future. From fishing, floating and rafting, to beaching, camping and hiking, the mud, sand and water is inevitable in our homes this season. Here are a few tips to keeping your home manageable so you can continue your summer fun:

- Don't let wet clothes and towels sit; if you can't throw them in the wash as soon as you get home, hang them to dry completely before putting in a hamper (or a pile on the floor)
- Remove common summer stains:
 - grass with vinegar
 - sweat with lemon juice
 - blood with hydrogen peroxide
 - deoderant with denim

DOTING ON THE DADS

This Father's Day, we honor all the Dads out there who have served as our support system, camp director, random fact generator, life coach, cheerleader, monster catcher, security guard, bad joke creator and guiding light. Spoil these brave and generous men with some of our favorite gifts:

- PhoneSoap Smartphone Sanitizer, \$80, uncommongoods.com
- CarbonKlean Peeps Glasses Cleaner, from \$20, amazon.com
- Keysmart Compact Key Organizer, from \$23, amazon.com
- Tooletries Silicon Koby Bag, \$35, amazon.com
- Drill Brush Power Scrubber, \$15, amazon.com
- The Dad Hoodie, \$85, thedadhoodie.com

STAYING SAFE

Now that most of the country is opening back up, it is still important to practice safety and maintain proper hygiene to prevent continued spread of Covid-19.

We will continue to offer our high touchpoint disinfecting cleaning using CDC-approved products specifically formulated to kill coronavirus pathogens. Call or email us today to schedule this safety measure.

Q(UICK) TIPS

Be a cleaning machine with your cleaning machines. Dishwashers can get impossibly dirty and stained with things like coffee, sauces and water spots.

Clean the inside of your dishwasher by place one cup of plain white distilled vinegar in a container on the bottom rack and a half-cup of baking soda into a small dish and place on the top rack. Run the dishwasher on the hottest setting, and let the vinegar and baking soda work their magic. Once the dishwasher has run through the cycle, let it sit closed for 20 minutes and continue to steam clean. Then, wipe the inside with a paper towel or soft sponge until dry.
